Hand Operated Curtain Pole System

Silent Gliss® 1003M Mini Metropole

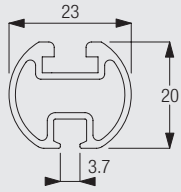

Product Information

- Hand operated curtain poles for domestic and contract applications.
- Ideal for bay windows.
- For light to medium weight curtains.
- Made to measure.
- Profile length 6m (chrome effect 4m).
- Four different finishes - black, silver, chrome effect, gunmetal and white.
- Range of decorative finial and midial designs in different styles and colours based around 6 moods - mono, teatro, primavera, studio, overture and metropolitan.
- Midial designs can also be used with holdback arms to create an attractive addition.
- Wall fix only with standard or 'ultra' brackets.
- Unlike other poles, 1003 can be bent to a small radius for bay windows etc.

Min. radius 15 cm

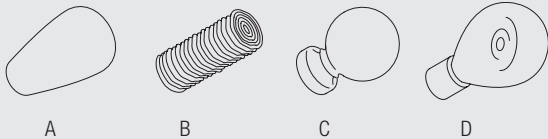

Design Options

Finials

Finials are decorative elements that fit at the end of the pole.

Please refer to the specific Metropole brochure for more detailed and colour descriptions.

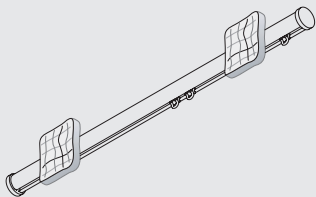

- A: Paddle
- B: Pepito
- C: Ball
- D: Hepworth

Without finial, endcaps with matching colour of the pole will be applied. Please refer to the specific Metropole brochure for more detailed and colour descriptions.

Medials

1003M

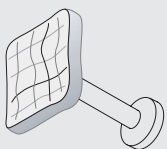

Medials are a curtain pole decoration projected in front of the pole. They cannot be used for ceiling fix applications.

Please refer to the specific Metropole brochure for more detailed and colour descriptions.

Medial with 55mm side length "Nugget", available in grey, amber or brown glass.

Holdbacks

Nugget medials are available as holdbacks.

Please refer to the specific Metropole brochure for more detailed and colour descriptions.

Combine Metropole with Roman Blinds

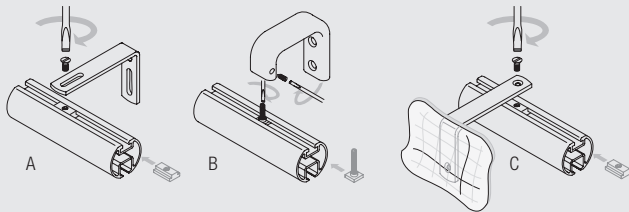

All of the Metropole systems can be used to create a winning new look - the METROPOLE ROMAN (Silent Gliss Roman Blind system 2010). Using a new technique either tab-top or flat-heading Roman blinds are hung from the Metropole and operated by a patented cord-lock system.
