

Venetian Blind System Silent Gliss 8110

Silent Gliss Venetian Blind Systems

Precision Systems

Silent Gliss have precision Venetian blind systems for ultimate control over light and glare – small adjustments as the day goes on enable you to have maximum light and visibility.

Quality and warranty

All the material used for our Venetian blinds are rust free and UV resistant for perfect functionality and appearance over time. Extensive testing of our high quality products allows us the confidence to offer a 3 year warranty.

Precision

Our experienced specialists assemble every system manually to guarantee a precise and smooth operation – day after day!

Made-to-measure

Venetian blind systems are made-to-measure in relation to proportional aesthetics, window dimensions and individual taste.

Aluminium Blinds

Venetians at their best

The range includes Venetian blind systems with wand, chain, cord or electrical operation. Mono-controlled – one operation controls the tilting, raising and lowering of the blind. Whatever preference you may have, Silent Gliss offers the ideal made to measure Venetian blind system for your window. Available with 16, and 25 mm slats.

Mono controlled system Silent Gliss 8300

- Unique chain operated Venetian blind system, with one single, elegant metal chain
- The clever positioning of the chain makes operation easy and avoids entangling

Wand controlled system Silent Gliss 8110

- Easy and precise operation with a control wand due to integrated brakes
- Perfect closing of the slats due to “snap” system
- Privacy feature ensures no direct light penetration when the slats are closed, particularly useful when working or watching screens (25 mm slats only)

Small Venetian Silent Gliss 8100

Wand controlled Venetian blind ideally suited for window frame fitting due to the narrow head rail (16 mm slats only).

Motorised system Silent Gliss 8250

Enjoy all the advantages of Venetian blinds with maximum ease of operation. The silent and precise motor ensures a smooth operation of the system at your fingertips.

Please see application charts at the back of this brochure for full range details.

Protect What You Love

As children grow, so does their curiosity with the world around them. Every day, household objects can be dangerous to infants. Chains and cords from curtains or blinds have been identified as a potential risk to small children.

Therefore, Silent Gliss put safety first and offer solutions for best-selling chain operated system Silent Gliss 8300.

Child safety device

An integral option for reliability and peace of mind. The device releases the operating chain should the pulling force exceed 6kg or more. Available for system Silent Gliss 8300

Safety retainer

Included as standard with chain operated Roman blind systems (unless the integral child safety device is specified). The safety retainer is fixed to the window reveal or wall and holds looped chains taut to reduce the risk of an inquisitive child becoming entangled.

Personalise Your System

Exciting perforated, sand-coated and mirror slats are just a few examples of our slat range – which contains 77 eye-catching colours – giving you almost endless possibilities to personalise your system.

Most of the colours are available with 16 mm and 25 mm slats. Additionally, some slats are thermo coated and reflect the light which reduces heat entering the room.

Total Control

Silent Gliss radio control systems allow remote operation without the need of complex wiring.

Operation possibilities

- Variety of hand held and wall switches
- Single or multiple channel solutions
- Daylight controlled operation with light sensors
- Timer function
- Remote control by SMS
- Home automation connectivity
- Smart phones and tablets (eg. iPhone and iPad) connectivity

Remote controls Silent Gliss 9940
