

Flexible Room Darkening. Simple Fitting.
Silent Gliss Dim-Out Blind Systems.

Perfect Shading for the Workplace.

Conference rooms and workspaces require flexible lighting conditions, whereas presentations often need the room completely dark. The Silent Gliss dim-out system provides the ideal solution for room darkening. Side profiles, a ZIP tensioning system and brush strips are uniquely combined to provide the perfect blackout. The systems are simple to use, with a choice of chain or electric operation.

Brush strips prevent light penetration

Simple to install.

Fitted in just a few simple steps, with profiles fixed directly to the wall or ceiling, the system keeps costs to a minimum. Effortlessly.

Offered in three sizes.

The system is available in small, medium and large to accommodate a wide range of window sizes. Profiles are supplied powder-coated in black or white.

Designed for Purpose.

Perfectly positioned. Perfectly tensioned.

The unique two-component ZIP system ensures smooth and consistent movement. The fabric is perfectly tensioned at all times and the side profiles enable optimum placement in front of windows or other glass partitions. With simple fitting, installation costs are kept to a minimum.

Blackout at the push of a button.

The dim-out blind system is offered with chain or electric operation. When electrically operated, a radio remote control and the Silent Gliss Move app are available. The Move app allows rooms to be automatically darkened at a specific time, even pre-programmed for upcoming events!

Top-class and made-to-measure.

The Silent Gliss dim-out system is supplied made-to-measure with a choice of high-quality Silent Gliss fabrics.

Silent Gliss is the leading global supplier of motorised and manual curtain and blind systems in the high quality market.
