

Silent Gliss 2810 with Vertical Waves - Andrea

Vertical Waves A new design for Vertical Blinds

Annika: thorns, stormy seas...

Our aim is to create a more pleasant acoustic and lighting environment in different interiors, and to provide the opportunity to partition off areas and create smaller rooms.

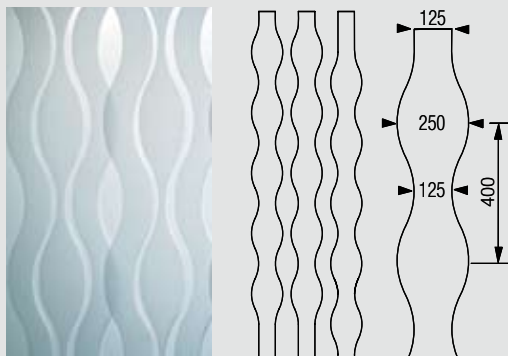

Laser-cutted polyester fabric,
width: 125-230mm

Maria: soft waves, rippling sounds, running water...

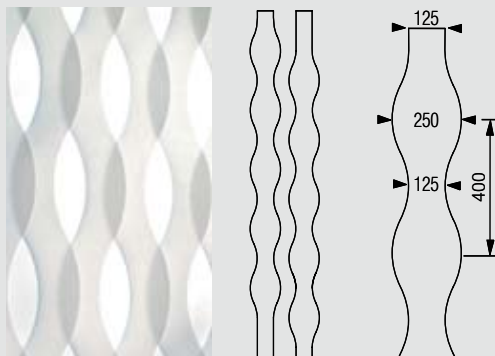

Harmony and peace through soft waves,
creating patterns of shadow and light in different
degrees of transparency.

Laser-cutted polyester fabric,
width: 125-250mm

Andrea: snowdrifts, howling wind, shoots...

Inspiration comes from a frozen winter landscape, with wind-driven snowdrifts and vegetation still hidden beneath the snow.

Laser-cutted polyester fabric,
width: 125-250mm

Eva Marmbrandt

Textile designer MFA, Sweden

Degree from College of Arts, 2004, Stockholm

“My goal is to consolidate and develop the significance of textiles in public environments. During the last few years I have focused on developing new materials and forms in the area of vertical blinds, where I exploit the unique advantage that this system offers to designers.”

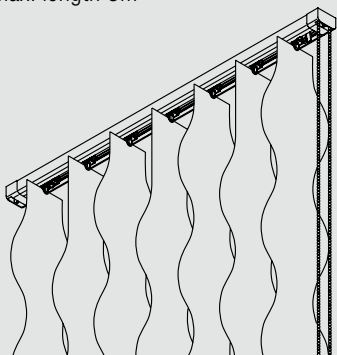

Colors

Vertical Waves are available exclusively with the fabric Visiotex in the following colors.
