Metropole Decorative Curtain Poles... an Introduction

As well as offering new and very individual styling for curtain poles, Metropole brings that Silent Gliss 'extra' – perfect function. Silent Gliss gliders run in siliconised aluminium channels unhindered by brackets or rings. Moreover the design of the hand and cord operated profiles – make them perfect for bay windows and other curved applications.

The 30mm, 36mm and 50mm poles are compatible with Silent Gliss Wave® Curtain Heading Systems.

Metropole is available hand, cord or electrically operated and is available, in 23mm, 30mm or 50mm diameter or the ultra modern 36mm Metroflat flat profile.

The curtain pole is only the start! You can design your pole to whatever look you want – contemporary or traditional with a choice of finials, midials, holdbacks and brackets.

Systems

Metropole is actually a functioning curtain track available in 4 different sizes/shapes. The curtain hangs directly on the gliders removing the need for curtain rings. Start by choosing your preferred pole and then select from the wide range of decorative accessories.

You choose the final look of your curtain pole!
A modern and striking design that can be coordinated to the look of your room.

Step 1: Choose 30mm or 50mm pole.

Step 2: Decide whether you require hand, cord or motorised operation?

Step 3: Choose your pole/finial finish. Strata is available in all pole finishes (except system 6150 available in white, silver, steel grey and black). The metal elements of the finial will automatically be matched to the pole colour.

Step 4: Decide your central disc colour.

Accessories

Brackets

Standard brackets

Available in a range of sizes to suit your curtain heading style. Brackets are colour matched to all 13 pole finishes and come complete with bracket covers to hide screw fixings.

Adjustable brackets

For complex installations requiring greater fixing flexibility, especially useful for bent applications.

Pillar brackets

A bold and more decorative alternative to standard brackets for the 30mm pole. Available in all pole finishes.

Ultra brackets

Offer a modern minimalist look. Available in black, silver, gunmetal, chrome, classic gold, diva gold and white.

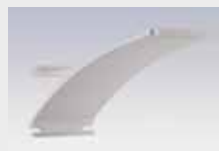

Vela brackets

A bold design statement particularly suited to the larger 50mm pole. Recommended for straight poles only and available in all pole finishes. Vela brackets supplied as standard on system 6150 motorised.

Top fix brackets

Top fix close to the ceiling using discreet ceiling fixing plates. Note that finials and midials cannot be used with these brackets.

Also available for system 6150, top fix mini hangers. These are supplied as standard on top fix 6150 systems with finials.

Intermediate Pulley

An intermediate pulley allows the pole to be corded from both ends. Particularly suited for longer poles or where sunlight direction requires individual curtain control.

6120 corded system with finials and intermediate pulley

Decorative cord weights

Sleek decorative weights for corded systems 6120 (30mm) and 6160 (50mm) give an elegant finishing touch.

Available in chrome, metallic grey and white.

Motorised Options – System 6150

The 6150 system cleverly fuses the elegance of metropole with the functionality of Silent Gliss electric tracks. There are 3 electric track options (system 5090, 5200 and 5400) to suit light to heavy weight curtains. These systems offer a multitude of control options including wall switch, timer and remote control.

Motor Colour Options

System	6150M Profile Colour	Motor Colour
